

River Thames – emergency river closure

Blake's Lock on the River Kennet

Friday 10 March 2017

Pollution incident on the River Kennet

The River Kennet is closed at Blake's Lock until further notice. The lock is chained and padlocked shut. We have deployed booms immediately downstream of Blake's Lock to contain the pollution.

We apologise for any inconvenience this emergency closure causes and thank you for your patience during this time.

Barry Russell MBE
Harbourmaster
