

## River Thames – lock restriction

### Old Windsor Lock

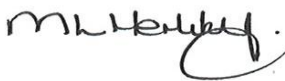

**Wednesday 2 December 2020**

**Contractor works on lock site – delays of up to 2 hours likely**

**Directions for navigation and general information during these works:**

- Contractors will be working on site and require pipe/cable access across the lock gates of Old Windsor Lock for essential maintenance works. Whilst this is in place the lock gates will be inoperable, preventing transition through the lock.
- The lock keeper will manage the site to allow periodic lock operation throughout the day, however there may be a delay of 1-2 hours depending on what time you arrive at the lock.

We apologise for any inconvenience this may cause and thank you for your patience during this time.
