

River Thames – lock and river restrictions

Teddington Lock

Saturday 1 August to Monday 31 August 2020

From Saturday 1 August, assisted passage through Teddington Lock will be available from **7am – 9pm**.

We will only be offering tidal transits between these times. Please see the table below if you are planning a journey on the tideway.

As the self-service facility is not possible at Teddington, **transit will not be possible through the night** and from 9pm until 7am, the lock will be closed to traffic.

We will be regularly reviewing this as the boating season progresses with a view to return back to a full 24hr service as soon as we can.

Short period launch registrations and annual unpowered registrations are now available at the lock but can also be purchased by phoning our Boat Renewal Line on **0330 159 1983**.

Guidance for using the Lock

- Transiting through the lock will be practiced with social distancing.
- Members of staff will be on site to operate the pedestal but will have limited ability to assist with ropes in order to keep a safe distance.
- We recommend at least one crew member to be present to manage ropes and react to any incident that may occur.
- Skippers and passengers are to remain on vessels while in the lock and follow instruction from the lock keeper if a visiting licence is needed.
- Please do not congregate once on a mooring.
- If heading onto the tideway, please make sure you have booked with Brentford or other suitable lock or mooring. Please arrive with plenty of time and wait on the layby for instructions from the lock keeper.

We will be providing updates on tidal transit times every before the beginning of every month.

If you are planning a Tidal journey there is no need to contact us to book. Please see the tide times below that we will be open for. For journeys to Brentford lock, please make sure you are waiting on the layby at least one hour before High Water. This may vary with other tidal transit destinations.

Thank you,

Maria Herlihy
Harbour Master
